PERU  
LOOKING TO THE FUTURE

PERUVIAN NATIONAL BLOOD PROGRAM

Created on 1995 by law

Incharge of 245 blood banks around the  
country

95 processes all the blood of the country

Having lack is the quality system and in  
financial support

## PRESIDENTS ANNOUNCEMENT

*“In 2015 we will make an important step with the creation of the National Institute of Donation and Transplants of Organs, Tissues and Cells, that will let the access to all people who will need transplant reach it, and promoting the voluntary blood donation, assuring the quality of the system.”*

RM N°211-2015/MINSA creates the Commission that wrote the new law project for join the National Blood System with the Organ and Tissue donation and transplant System, with a new point of view

### **The New System: National Institute of Donation and Transplant of Organs, Tissues and Cells**

Direct the national policies for the donation and transplant of organs, tissues ( including blood ) and cells.

.Own resources, including financial resources for the activities, with public insurances ( SIS = Seguro integral de Salud )

.Centralized the main processes like blood donation and processing, cord blood banking, national registries, like bone marrow and voluntary blood donors

## Cooperation in the Region

- Andean Group:

- Leadership on safety policies for 5 countries in the region, acts helping the governments to reach better safety programs including voluntary blood donation

- PAHO

- GCIAMT: collaborative groups, working over network training

## Peruvian Institutions

- Peruvian Society of Blood Banking and Transfusional Medicine

- Support with training by giving technical courses, and supporting international congresses

- Giving advice about the new policies in the country

- Futbol Peruvian Federation:

- Promoting voluntary blood donation by the next 3 years

Thanks you.... and welcome to Peru 2016
